Operational/CATANSI/CASTONE

Progress Report -- January 1958

Reference: ECMA-31286, dated 13 January 1958

Headquarters Action Required:

None; for information and files.

Developments:

1. CASTONE activity during the reporting period was at its lowest level in many months. Only two surveillances were mounted, both continuations of last month's surveillances of Laszlo PAP. The team should be fully occupied during the first few weeks of February, however.

2. CASTONE-4 fell ill of phlebitis early in January, and was confined to his house during the greater part of the month. He has since recovered to the point that, although still unable to take part in surveillances, he is now able to make occasional trips to the Police Presidium. CASTONE-4 has now almost completely regained his access to police files, the loss of which was reported in paragraph 5 of ECMA-30368, dated 16 December 1957.

Approved:

Attachments:

- A. HEMAY/CART report (herewith)
- B. CASTONE report (under separate cover)

Distribution:

- 3 - EE (w/Att. A h/w in trip.; Att. B u.s.c. 1 copy)
